

## ABOUT THE CONFERENCE

The 2<sup>nd</sup> International Conference on Sentimental Analysis and Deep Learning (ICSADL 2022) is a prominent event organized with the motivation for providing an international forum for all researchers, academicians and students for sharing their research findings on the different facets of Deep Learning and Sentimental Analysis techniques. ICSADL 2022 organized by Tribhuvan University, Nepal is held on 16-17, June 2022. ICSADL 2022 aims to exchange and share new ideas and research results about all aspects of Sentimental analysis and deep learning which includes Artificial Intelligence, Innovations in robotics, Big Data and also converse the practical challenges encountered and the solutions adopted. ICSADL 2022 will highlight the areas of Statistical Learning Methods, Applied Intelligence, Machine Learning, Natural Language Processing and Cognitive Computing.

## ABOUT THE COLLEGE

Nepal being the landlocked country in the northern hemisphere and sandwiched between two Asian giants: China and India, has the glory of having world's highest mountain- Sagarmatha (Everest) and being the birth place of Lord Buddha- Light of Asia. The beauty of the country is extreme diversity within close proximity of topography, ecology, flora and fauna. Owing to the topography and people, Nepal has rich cultural heritage. Visualizing the economy, Nepal is in the process of transformation. The concern now is the development of the country and prosperity of the people. Prosperity is not only the material well-being; it is building capacity of the people with rights and responsibility.
